

# RE BLOC<sup>®</sup>

## Concrete Barriers

# SALES ENGINEER INTERNATIONAL

## Full-Time

**REBLOC Concrete Barriers stand for maximum safety on roads and motorways worldwide.**

REBLOC is a worldwide leading developer and manufacturer of modern precast concrete safety barriers and contributes thereby to increased traffic safety on motorways and national roads.

We are looking for a new employee as **Sales Engineer International** for our office in Gars/Kamp.

### Duties:

- Management of international projects (planning, quotation and implementation including customer relation, etc.)
- Training and support of our sales and licence partners in Europe and worldwide (technical, organizational, etc.)  
The training takes place both on site at partners abroad and in Austria.
- Contact to authorities, traffic planning officers and potential customers in Europe and worldwide
- Preparation and giving of presentations
- Preparation of technical documents

### Job profile:

- Advanced technical degree (civil - or mechanical engineering)
- Extensive experience and proven track record of managing clients and partners at a technical level
- English language (native speaker preferred); Further language skills of advantage
- Good negotiation skills
- Good IT-user knowledge (MS-Office, etc.)
- Willingness to travel internationally (20 %)

### We offer you:

- Varied and challenging responsibility
- Pleasant working atmosphere
- Continuous training
- Performance-related salary  
(monthly earnings (Kollektivvertrag Stein- und Keramische Industrie) reflect education and experience).
